

Ambu's production exempt from Malaysian movement control order

The Malaysian authorities have granted Ambu – as a manufacturer of medical devices – exemption from the two-week movement control order that has been declared with effect from 18 March, 2020. The nationwide movement control order is an initiative to counter the spread of Covid-19 in Malaysia.

“Our role is to keep supplying hospitals around the globe with devices that help save lives and improve patient care. With the current pressure on national healthcare systems, we do our utmost to make sure that we can keep producing and delivering supplies to hospitals. Therefore, it is positive that the Malaysian authorities recognize the role we play in supporting healthcare facilities,” says Juan Jose Gonzalez, CEO of Ambu.

About Ambu

Ambu has been bringing the solutions of the future to life since 1937. Today, millions of patients and healthcare professionals worldwide depend on the efficiency, safety and performance of our single-use endoscopy, anaesthesia, and patient monitoring & diagnostics solutions. The manifestations of our efforts have ranged from early innovations like the Ambu® Bag™ resuscitator and the Ambu® BlueSensor™ electrodes to our newest landmark solutions like the Ambu® aScope™ – the world's first single-use flexible endoscope. Moreover, we continuously look to the future with a commitment to deliver innovative quality products that have a positive impact on the work of doctors, nurses and paramedics. Headquartered near Copenhagen in Denmark, Ambu employs approximately 3,000 people in Europe, North America and the Asia Pacific. For more information, please visit ambu.com.
