

aCart™ Compact

DATASHEET

aCart™ Compact is a modern, mobile workstation that adds value to the Ambu single-use product portfolio. The aCart™ Compact workstation provides convenient storage and portability without taking up a lot of space.

A modern mobile workstation

The aCart™ Compact workstation enables you to move fast when you need to respond to an emergency or change clinical environments. It is also ideal for the outpatient clinic or for doctor's offices with limited space.

Robust and portable

The design and choice of materials make the aCart™ Compact workstation light enough to easily transport, yet robust and stable enough to protect your valuable endoscopic equipment. The hygiene of the aCart™ Compact workstation is certified by the DGKH (German Society for Hospital Hygiene).
