Ambu[®] Neuroline Concentric

Neurology Needle Electrode - Single Use

Key Benefits

- Precision-centered silver sensor ensures uniform, reliable recordings
- Outstanding sharpness provides smooth skin penetration and greater patient comfort
- Ergonomic colour-coded hub design for ease of use
- Tactile index mark on hub for easy identification of the bevel position
- Orientation-free connection to Ambu Neuroline Concentric cables, for ease of use
- High signal quality with low impedance for strong, reliable recordings
- Available in 6 convenient sizes

Indication for use

• Electromyography (EMG)

Ambu® Neuroline Concentric Needle

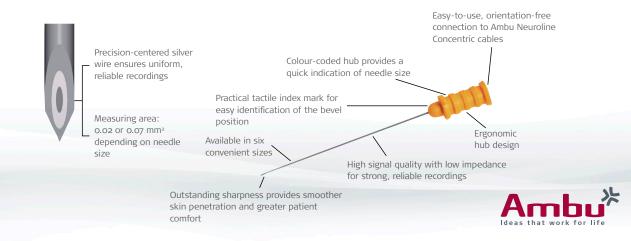

Ambu Neuroline Concentric needles have been designed and manufactured to give the greatest possible confidence and reliability during EMG procedures. The needle features high quality design, including precision centering of the inner silver core so the recordings are both accurate and reliable. The needle is outstandingly sharp, which reduces pain during insertion.

The cannula itself is made of stainless steel, providing the optimum balance between strength and flexibility.

Strength ensures that you quickly and efficiently penetrate the skin; flexibility facilitates fine adjustments within the target area.

All Ambu Neuroline Concentric needles feature a colourcoded hub with a tactile index mark to indicate the recording position of the bevel.

Moreover, the hub itself is ribbed and slightly contoured so that it can be firmly, yet comfortably, held between the thumb and index finger.

Specifications

Environment	
PVC-free electrode	Yes
Latex-free electrode	Yes
PVC-free lead wire	No
Latex-free lead wire	Yes
PVC-free packaging	Yes

Materials

Electrode	
Cannula	Stainless steel
Sensor	Silver
Hub	Copolymer of Acrylonitrile, Butadiene, and Styrene (ABS)
Insulator	Ероху
Protection tube	Polyethylene (PE)
Connection type	o.9 Pin-connector, brass/gold plated
Sterilization method	E-beam
Packaging	
Pouches, inner layer	Polyamide (PA)
Pouches, outer layer	Polyethylene (PE)
Boxes	Cardboard

Available configurations

Item No.	Length		Calibre		Shelf life in months	Recording area	Packaging		
	mm	inch	mm	gauge no.	(unopened pouches)	mm²	pouch	box	carton
740 25-30/25	25	1"	0.30	30G	36	0.02	1	25	400
740 25-45/25	25	1"	0.45	26G	36	0.07	1	25	400
740 30-35/25	30	1.2"	0.35	28G	36	0.02	1	25	400
740 38-45/25	38	1.5"	0.45	26G	36	0.07	1	25	400
740 50-45/25	50	2"	0.45	26G	36	0.07	1	25	400
740 75-65/25	75	3"	0.65	23G	36	0.07	1	25	400

Available cables

Item No.	Lead wire leng		Shelf life in months		Connector	Packaging	
	cm	inch	(unopened pouches)	mm		pouch	
1741	100	40"	-	1.0	DIN(60130-9)	1	
1742	200	80"	-	1.0	DIN(60130-9)	1	

The reusable Ambu Neuroline Concentric cable has an orientation-free connection to the needle and fits most EMG equipment. The cable is shielded and made of strong flexible wire.
